

INDIVIDUAL- LÖSUNGEN

Technik perfekt und
elegant gelöst. 47

Vom Einzeilmöbel bis
zur Vertäfelung.
Nach Ihren Wünschen. 49

*Phantasie ist wichtiger als Wissen,
denn Wissen ist begrenzt.*

A. Einstein

**Ihre Wünsche werden wahr.
Innenausbau und Einzeilmöbel vom
Feinsten.**

Die Ausstattung eines eleganten Appartements in exponierter Lage ist immer eine besondere Herausforderung, zumal anspruchsvolle Architektur und Technik besondere Eckpunkte setzen. Die klar gegliederte Bücherwand fasst den Kamin symmetrisch ein und lässt alle Luftein- und auslässe für Kamin und Klimatechnik verschwinden. Das Sideboard in schwarzem Hochglanzlack verbirgt bei Nichtgebrauch sowohl den versenkbaren, großen Flachbild-TV als auch die Elektronik der raumübergreifenden Hi-Fi-Technik. Nur der CD-Wechsler bleibt – als dekorativer Blickfang – sichtbar.

*Die Kunst ist zwar
nicht das Brot,
aber der Wein des Lebens.*

Oscar Wilde

Das Speisezimmer wird geprägt durch wertvolle Kunst und ein prachtvolles Tischensemble. Und doch ist das passgenaue Sideboard in weißem Hochglanzlack ein Glanzpunkt, der die Raumarchitektur meisterlich ergänzt.

Die Paneele im Schlafraum schweben zwischen Boden und Decke und ermöglichen beeindruckende Lichteffekte der indirekten Beleuchtung.

Die großzügige offene Ankleide schließt sich an und wird von der Täfelung verdeckt.

Design-Vielfalt und Qualität bei den KMK-Linien

Holz – die Grundlage anspruchsvollen Möbel-Designs

Holzarten, verfügbar für alle KMK-Design-Linien (Fronten und Innenausführung jeweils in gleicher Ausführung):

- Standardbreiten 45,4 cm, 60,0 cm, 90,0 cm und 119,2 cm
- Standardtiefen 34,0 cm, 42,0 cm, 90,0 cm und 119,2 cm
- Individuelle Korpusbreiten und Tiefen nach Wunschmaßen möglich

Living in style. (6)

It is our tradition at KMK to place high priority on fulfilling the living desires of our customers, therefore our renowned designers create furniture concepts, which are planned out by qualified technicians and realised by skilled cabinetmakers.

We focus on combining current technical developments with high furnishing standards as well as using the best materials. An example of this is the foldaway panels for flat screen TV's in sideboards or behind screen panels, especially designed to accommodate flat screen TVs. Our elegant furniture meets the high requirements for TV and media solutions. KMK furnishings epitomise zeitgeist, style and elegance.

AVENUE. (6)

The AVENUE interior fittings programme offers you elegant design freedom for the highest standards. This made-to-measure furniture practically blends with the wall or recess, turning the spatial conditions into a large stage for the perfect interior design. This stylish interior fittings programme offers undreamt-of solutions and possibilities. Design: Bernd Münzebrock

Living requirements with style. (8)

It's more than easy to discover walls as stylish design freedom for integrated furniture systems with AVENUE. AVENUE reveals its true class in the variety of the interior fittings programme and in its transparent openness. Cupboard, shelves, display cabinets, sideboard and highboards, plus the panels of the elegant interior fittings programme, are complemented by connecting pilasters in various widths. AVENUE is also available in a customised version.

The modern interpretation of the classical. (12)

The latest media technology and lighting concepts can be completely integrated. Allow yourself the freedom, and experience the new form of classic just as you like.

Here, the classic quite literally meets the modern, because the sophisticated core of the programme is a media element that conceals or presents flat screen TVs and surround sound systems discreetly or stylishly, as preferred.

Enjoy is an art in itself. (14)

Quality and craftsmanship form the basic character of this wardrobe. Added to this is the modern elegance of the style elements – with the decorative profiling of the ultimate bedroom idea.

CAPITOL. (18)

Nothing reflects the lifestyle of the inhabitants better than the entrance to a house or apartment. The planked walls with the circular framework section make a tremendous first impression. A spacious wardrobe can be hidden behind the slim line panels with wall lights. This simple elegance is also suitable for dining rooms or living rooms.

Classic furnishings with a modern touch. (20)

An interesting version of the furnishing is in the combination of classic interior decor with the modern, almost puristic design of upholstered furniture and decorative pieces. The wall panel's most impressive features are its generous surfaces and perfect craftsmanship. The straight-line version of the sidewall with the flat front (small photograph) with a high gloss finish also shows the same kind of perfection.

Incidentally, at KMK we manufacture our products from various types of timber and in almost every colour.

Expressive dimensions define character and appearance. (22)

The dimensions of the plinth, chaplet and the side frames are impressive: The elegant profile at the top is decorated with a vertical pilaster semi-oval. These are optionally flat or with grooves as high as the sideboards. The use of exclusive and matt timber as well as varnish applied by hand and bright designs gives the finishing touch to the product.

Exclusive to everyone. (24)

Designed for everyone with high demands in home decor and interior design. We are talking about classic interior accessories. Individual furnishing. Today this is a privilege for everyone, not just the upper class of society and it is a unique way to express your personality. Same individuality yet increased perfection. The planked walls with specially designed light solutions for installation in private libraries come with a built-in bar and many other features.

Living senses. (26)

CAPITOL is a sophisticated furnishing system also allowing decoration with single pieces of furniture. Its impressive effect is shown with dimensionally accurate interior accessories. The spacious study proves that the whole concept with wall planking and a built-in fireplace show excellent results. The small picture of the same library shows the interior accessories as elegant solutions for living space.

RESIDENZ. (30)

The vivid and elegant design in white gives a southern charm to the house. Slim-line shelves with drawers, a small desk with mirror panels and a sophisticated louvred door all show the individual and timeless design of RESIDENZ.

For books, paintings and sculptures. (32)

The customised fitting of RESIDENZ gives the finishing touch to the classic presentation of your books, paintings and unique pieces of art.

The quest for perfection. (34)

A room gives me the goal of decorating and creating a perfect atmosphere and also meeting the demands of the inhabitants. The hi-fi system can easily be accommodated in the library with the fireplace. The windows are integrated by the customised wall planking. Sophisticated glass display cabinets in the dining room complement the lighted niche panelling. The coving is specially customised and attached to the illuminated ceiling without any joints. It is matched with the colour of the ceiling.

Perfect for antiques. (36)

The elegant, English dining table set, a dream for any landlady. RESIDENZ offers the perfect background to enhance this masterpiece, itself not remaining unnoticed. This all shows the quality of this great and classic design, which has a non-obtrusive character and effect. RESIDENZ - the maturity of a great design.

Interior accessories like in a luxurious cruise liner. (38)

The louvred doors have a stately appearance, providing that the finishing is as excellent as here of course. This is due to not only the surface being hand wiped but also the flute of the pilasters, typical for RESIDENZ, and the dust-tight fronts due to additional flat filling behind the louvres. Wall panels, crown moulding and the elegant interior decoration, i.e. drawers with glass fronts, add to the extra effect.

VIENNA. (42)

Every era has its trends concerning the design, the timber or its colour. True individuality does not depend on „in“ or „out“ and people know what they want therefore the room concepts are outlined and the specialists for interior design help them become reality with creativity, boldness and perfection. VIENNA offers all the possibilities of a perfected system and the KMK experts and their efforts to meet your individual demands, from single bookcases to display cabinets and individual interior accessories, implement this system.

Classic pillars. (44)

Our interior designers focused on creating harmony within a room yet giving it the appropriate and unique touches. Thanks to VIENNA, an impressive job was accomplished with the fitting of a spacious library with the possibility for a great literature collection. Behind the doors, there is enough space for things that should not be seen on a first glimpse.

A dream in white. (46)

A display cabinet and bookshelf frame the light and charming cabinet with sideboard and back wall paneling. A flat screen TV comes and goes in the field of vision after its use as if moved by a ghost's hand. Even more impressive is the technology of the freestanding sideboard with glass doors. The flat screen TV is safely accommodated and there is space for decoration or for special books in your field of vision at the same time.

In peace lies strength. (48)

The VIENNA wardrobe accentuates elegance and a noble appearance. This wardrobe with its gleaming varnished pilaster was made from the timber of European cherry trees. The bed head with ornamental elements is a contrast to the dark root wood of the polished wooden bars. A bedroom with endless elegance complemented by the customised spacious dressing room to meet your demands.

Your dreams come true. High quality interior accessories and furniture. (52)

Creating the interior design of an elegant apartment in an exposed location is always a challenge, as sophisticated design and technology have to be the main pillars. The well-defined structure of the set of bookshelves symmetrically encloses the fireplace and is the perfect solution for the air inlet and air outlet of the fireplace and also for the air conditioning. The black mirror finish of the sideboard conceals the flat screen TV as well other electronic devices when they are not in use. The CD-player is the only viewable device, as a decorative eye-catcher.

(54)

The dining room is characterised by precious pieces of art and a magnificent table set. The customised sideboard in a white high gloss finish gives a great finishing touch. The panelling in the bedroom hovers between floor and ceiling and makes an impressive light effect as a result of indirect lighting. The spacious wardrobe is attached and concealed behind the wall planking.
